

ETHERNET EXTENSION EXPERTS IS PLEASED TO ANNOUNCE THE AVAILABILITY OF THE WORLDS FASTEST ETHERNET EXTENDER KIT.

Las Vegas, NV – March 15th 2008 – Enable-IT, Inc., a global dominating manufacturer of access solutions for broadband networks, today announced the availability of the Enable-IT 860 100Mbps Full Duplex Ethernet Extender Kit – the World's Fastest Ethernet Extender in the marketplace today.

The Enable-IT™ 860 Single-Line Ethernet Extender is a 1-pair VDSL2 solution that drives true 100MB throughput Ethernet data and single voice line up to 6,000ft or 1,828m distance over a 1-Pair (2 wire) telephone line wiring or better.

Hands down these are the highest throughput performing Ethernet Extenders on the planet, bar none. These units are the most reliable and easy to install on any wiring. They put the over priced and lower performing competition to shame. For detailed information on this unique product, please see <http://www.ethernetextender.com/ethernet%20extenders/860.php>

About Enable-IT, Inc.

ENABLE-IT is a Premier OEM Manufacturer of Broadband communication technologies and solutions for the hospitality, commercial office, and MxU (multiple-dwelling, multiple-tenant, multiple-commercial, multiple-hospitality) unit marketplace.
